§ 54.1-100. Regulations of professions and occupations.

The right of every person to engage in any lawful profession, trade, or occupation of his choice is clearly protected by both the Constitution of the United States and the Constitution of the Commonwealth of Virginia. The Commonwealth cannot abridge such rights except as a reasonable exercise of its police powers when (i) it is clearly found that such abridgment is necessary for the protection or preservation of the health, safety, and welfare of the public and (ii) any such abridgment is no greater than necessary to protect or preserve the public health, safety, and welfare.

No regulation shall be imposed upon any profession or occupation except for the exclusive purpose of protecting the public interest when:

1. The unregulated practice of the profession or occupation can harm or endanger the health, safety or welfare of the public, and the potential for harm is recognizable and not remote or dependent upon tenuous argument;
2. The practice of the profession or occupation has inherent qualities peculiar to it that distinguish it from ordinary work and labor;
3. The practice of the profession or occupation requires specialized skill or training and the public needs, and will benefit by, assurances of initial and continuing professional and occupational ability; and
4. The public is not effectively protected by other means.

No regulation of a profession or occupation shall conflict with the Constitution of the United States, the Constitution of Virginia, the laws of the United States, or the laws of the Commonwealth of Virginia. Periodically and at least annually, all agencies regulating a profession or occupation shall review such regulations to ensure that no conflict exists.

1979, c. 408, § 54-1.17; 1988, c. 765; 2016, c. 467.

§ 54.1-100.1. Department of Commerce continued as Department of Professional and Occupational Regulation.

The Department of Professional and Occupational Regulation, formerly known as the Department of Commerce, is continued, and wherever "Department of Commerce" is used in this Code, it shall mean the Department of Professional and Occupational Regulation. The Board for Professional and Occupational Regulation, formerly known as the Board of Commerce, is continued, and wherever "Board of Commerce" is used in this Code, it shall mean the Board for Professional and Occupational Regulation.

A copy of examinations given by regulatory and advisory boards within the Department of Professional and Occupational Regulation and the Department of Health Professions authorized to conduct examinations of applicants for admission to practice or pursue any profession, vocation, trade, calling, or art shall be kept on file at the office of the secretary of each board. A copy of the examination shall be placed on file within ten days after it is administered, and shall be preserved for at least one year as a public record accessible to any person desiring to examine it during usual business hours. After the expiration of one year from the time the examination is filed, the secretary of the respective board may withdraw and destroy the examination. However, this section shall not be construed or interpreted in a manner to require the filing or release of examinations or other information which would result in compromising the validity or security of future examinations conducted by regulatory or advisory boards of the Department of Professional and Occupational Regulation or the Department of Health Professions. In the event any provision of this section results in a conflict with the provisions of § 54.1-108, the provisions of § 54.1-108 shall prevail.

(Code 1950, § 54-1; 1952, c. 227; 1959, Ex. Sess., c. 94; 1960, c. 10; 1962, c. 13; 1970, c. 623; 1973, c. 284; 1985, c. 448; 1988, c. 765; 1993, c. 499.)

Whenever in this title any regulatory board within the Department of Professional and Occupational Regulation or the Department of Health Professions is required to send any mail or notice by certified mail and such mail or notice is sent certified mail, return receipt requested, then any subsequent, identical mail or notice that is sent by any such regulatory board may be sent by regular mail.

Notwithstanding any contrary provision of law, any license, permit, certificate, or other document, however styled or denominated, that is related to the practice of any business, profession, or calling and issued under this title to any citizen of the Commonwealth shall be held not to have expired during the period of such person's service outside the United States, in the armed services of the United States or as a member of the diplomatic service of the United States, appointed under the Foreign Service Act of 1946, serving outside the United States and 60 days thereafter. However, no extension granted under this section shall exceed five years from the date of expiration of the document. The provisions of this section shall apply to the spouse of a member of the armed services of the United States if the spouse accompanies the member during periods of service outside of the United States.

For the purposes of this section "service in the armed services of the United States" includes active duty service with the regular Armed Forces of the United States or the National Guard or other reserve component.

§ 54.1-118. Qualifications for licensure, etc.; substantially equivalent military training and education.

A. Except as provided in this section, the regulatory boards within the Department of Professional and Occupational Regulation, the Department of Health Professions, or any board named in this title shall accept the military training, education, or experience of a service member honorably discharged from active military service in the armed forces of the United States, to the extent that such training, education, or experience is substantially equivalent to the requirements established by law and regulations of the respective board for the issuance of any license, permit, certificate, or other document, however styled or denominated, required for the practice of any business, profession, or occupation in the Commonwealth. To the extent that the service member's military training, education, or experience, or portion thereof, is not deemed substantially equivalent, the respective board shall credit whatever portion of the military training, education, or experience that is substantially equivalent toward meeting the requirements for the issuance of the license, permit, certificate, or other document.

The provisions of this subsection shall not apply to the Board of Medicine in the regulation of the practice of medicine or osteopathic medicine. Nor shall this subsection apply to the Board of Dentistry in the regulation of dentists or oral and maxillofacial surgeons.

B. The Board of Medicine may accept a service member's military training, education, or experience as an intern or resident in an approved facility to satisfy the requirement of one year of satisfactory postgraduate training as an intern or resident in a hospital or health care facility, provided the applicant for licensure (i) has been honorably discharged from active military service in the armed forces of the United States, (ii) is a graduate of a Board-approved institution, (iii) has successfully completed all required examinations for licensure, and (iv) applies for licensure within six months of discharge from active military service.

C. The Board of Dentistry may accept the military training, education, or experience of a service member provided the applicant for licensure (i) has been honorably discharged from active military service in the armed forces of the United States, (ii) has been in continuous clinical practice for four of the six years immediately preceding the application for licensure, (iii) holds a diploma or certificate of a dental program accredited by the Commission on Dental Accreditation of the American Dental Association, and (iv) has successfully completed all required examinations for licensure. Active patient care in the Dental Corps of the United States armed forces, voluntary practice in a public health clinic, or practice in an intern or residency program may be accepted by the Board to satisfy requirements for licensure.

D. Any regulatory board may require the service member to provide such documentation of his training, education, or experience as deemed necessary by the board to determine substantial equivalency.

E. As used in this section, "active military service" means federally funded military duty as (i) a member of the armed forces of the United States on active duty pursuant to Title 10 of the United States Code or (ii) a member of the Virginia National Guard on active duty pursuant to either Title 10 or Title 32 of the United States Code.

(2012, c. 524.)

§ 54.1-119. Expediting the issuance of licenses, etc., to spouses of military service members; issuance of temporary licenses, etc.

A. Notwithstanding any other law to the contrary and unless an applicant is found by the board to have engaged in any act that would constitute grounds for disciplinary action, a regulatory board within the Department of Professional and Occupational Regulation or the Department of Health Professions or any other board named in this title shall expedite the issuance of a license, permit, certificate, or other document, however styled or denominated, required for the practice of any business, profession, or occupation in the Commonwealth to an applicant whose application has been deemed complete by the board and (i) who holds the same or similar license, permit, certificate, or other document required for the practice of any business, profession, or occupation issued by another jurisdiction; (ii) whose spouse is (a) on federal active duty orders pursuant to Title 10 of the United States Code or (b) a veteran, as that term is defined in § 2.2-2000.1, who has left active-duty service within one year of the submission of an

application to a board; and (iii) who accompanies the applicant's spouse to the Commonwealth or an adjoining state or the District of Columbia, if, in the opinion of the board, the requirements for the issuance of the license, permit, certificate, or other document in such other jurisdiction are substantially equivalent to those required in the Commonwealth. A board may waive any requirement relating to experience if the board determines that the documentation provided by the applicant supports such a waiver.

B. If a board is unable to (i) complete the review of the documentation provided by the applicant or (ii) make a final determination regarding substantial equivalency within 20 days of the receipt of a completed application, the board shall issue a temporary license, permit, or certificate, provided the applicant otherwise meets the qualifications set out in subsection A. Any temporary license, permit, or certification issued pursuant to this subsection shall be limited for a period not to exceed 12 months and shall authorize the applicant to engage in the profession or occupation while the board completes its review of the documentation provided by the applicant or the applicant completes any specific requirements that may be required in Virginia that were not required in the jurisdiction in which the applicant holds the license, permit, or certificate.

C. The provisions of this section shall apply regardless of whether a regulatory board has entered into a reciprocal agreement with the other jurisdiction pursuant to subsection B of § [54.1-103](#).

D. Any regulatory board may require the applicant to provide documentation it deems necessary to make a determination of substantial equivalency.
