FOOTNOTES

1. Entities applying under this activity code must submit a description of the processes/business practices for which this registration is being sought, and must have a supervising practitioner as follows:
 A practitioner licensed in Virginia shall provide supervision for all aspects of practice related to the maintenance and use of controlled substances as follows:
 - In a hospital without an in-house pharmacy, a pharmacist shall supervise.
 - In an emergency medical services agency, the operational medical director shall supervise
 - In an animal shelter or pound, a licensed veterinarian shall supervise
 - For any other person or entity approved by the board, a practitioner of pharmacy, medicine, osteopathy, podiatry, dentistry, or veterinary medicine whose scope of practice is consistent with the practice of the person or entity and who is approved by the board shall provide the required supervision.
 If supervising practitioner is a pharmacist, give DEA number of the provider pharmacy supplying drugs.
2. Persons applying under this activity code must submit, with the application, a protocol which specifically names the controlled substances to be used and provides details as to the intended use of these controlled substances within the work. Additionally, persons applying under this activity code must provide documentation showing competence (curriculum vitae, educational credentials, professional licensure, training) to use the controlled substances within the scope of this activity. Registration is required to perform laboratory analysis with controlled substances in Schedules II through VI, tetrahydrocannabinol, or marijuana.
3. Practitioners registered under federal law to conduct research with Schedule I substances, other than tetrahydrocannabinol, may conduct research with Schedule I substances within this Commonwealth upon furnishing the evidence of that federal registration. Schedule I must be approved by DEA prior to Board approval. A copy of the DEA license must be sent to the Board in order for the Virginia controlled substance registration to be updated to reflect Schedule I.
4. Naloxone dispensing – Submit a description of the process/business practices for which this registration is being sought. The responsible party shall be a prescriber, nurse, pharmacist, or other person authorized by the Department of Behavioral Health and Developmental Services to train individuals on the administration of injectable naloxone and proper disposal of a hypodermic needle or syringe. No inspection is required for this type of CSR. Note: a controlled substance registration is not required for the dispensing of intranasal or auto injector formulations of naloxone.
5. Telemedicine – The responsible party shall be a prescriber, nurse, pharmacist, or other person who is authorized by provisions of § 54.1-3408 of the Code of Virginia to administer controlled substances. No inspection is required for this type of CSR.

A 14-day notice is required for scheduling an inspection. An inspector will call the responsible party prior to the requested date to confirm readiness for inspection. If the inspector does not call to confirm the date, the responsible party should call the Enforcement Division at (804) 367-4691 to verify the inspection date with the inspector.
